REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicants' communication paper dated 4/28/04 is acknowledged. Together with their earlier amendments, applicants have cancelled claims 2,3, amended claims 1,4-15, and added new claims 21-34. Therefore, the claims under consideration are the claims 1,4-34, which are renumbered as claims 1-32 respectively.
3. Applicants' above stated cancellation of claims, amendments to claims, and presentation of claims 21-34 are sufficient for the withdrawal of claim objections made in the previous office communication. The claims 1,4-34 as presented now have clarity and are definite.
4. The closest prior art ref. of record Arcamone et al (WO9313739, also cited as Chemical abstract DN 120:107751) teaches compounds with cycloalkyl groups. The reference differs from the instant compounds by not specifically claiming dimethyl as well as dichloro cyclopropyl derivatives.

Arcamone does not indicate or suggest to arriving at the instant inventions and compounds thereof.

Therefore, the instant invention consisting of alkyl as well as halogen substituted cyclopropyl core are deemed to be novel and patentably distinct.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
6. Signed copies of the IDS papers submitted on 7/1/02; 9/4/03; 1/2/04 are enclosed with this communication for applicants' records.
